EDITION 7 / ENGLISH

The Company

Embrace the sun with our smart solutions for your patio

There is nothing more glorious than enjoying that good old sun on a radiant day. Or looking for shelter and refreshment in the shade when the sun starts shining too brightly. It's the perfect spot for reading a book, blissfully watching your kids playing or enjoying a tasty aperitif or a wonderful meal... Prostor takes pride in making that little place in the shade as stylish and functional as possible.

There's always a solution to suit your needs

As an expert in the development and sales of innovative sunshade systems, pergolas and windbreaks, Prostor offers a range of solutions to suit both smaller and larger patios, ensuring optimal usage of available space. Prostor products are available for private customers as well as professional projects, and cover both the middle and top segments. Always guaranteeing the same impeccable quality, naturally!

Nice to look at, easy to use

That excellence is combined with a stylish design and user-friendly functionality. So you can effortlessly enjoy your Prostor umbrella, pergola or windshield. The combination of high quality aluminium and superior quality cloth guarantee a sustainable and smart solution for your garden or patio.

Belgian quality, excellent service

The Brutsaert family – who is the driving force behind both Brustor and Prostor – has over 35 years of experience in sun protection. By constantly keeping a finger on the pulse of the latest trends and technologies, and offering excellent service to boot, we realize our ambition and daily motivation: the satisfaction of our customers. They can count on first-rate quality products made entirely in Belgium by an experienced and knowledgeable team. Our sales service runs through a dealer and distributor network with an in-depth knowledge of the market.

Pergola

Prostor Cabana

Specifications - the shade solution for that blissful holiday feeling

Fixation & Characteristics

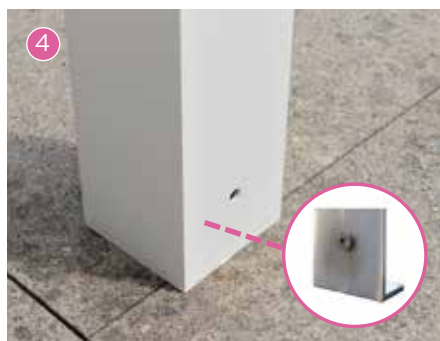

Sliding roof: stylish sliding roof with PVC fabric which can be slide open and closed effortlessly.

Smart closing system

No visible screws for an even nicer finish.

Fixation: the L-profile inside the pole anchors the Cabana to the ground (standard).

Roofcover: protects your Cabana's PVC fabric against rain, dirt and dust.

Colours - a white eye-catcher which brings peace to your terrace

FABRIC

Thanks to the superior quality of the PVC fabric, you can enjoy your Cabana in any weather (offers both shelter from the sun and the rain).

100% Polyester: 550 dtex

Colour: white

Weight: 650gr/m²

Colourfastness: 7-8/8 (DIN 53388)

Waterproof

Maintenance: the fabric is easily washable for even greater ease of use.

PROFILES

Standard colour: all profiles are 100% extruded aluminium with a solid white textured powder coating (RAL 9016).

PROSTOR CABANA Pergola

SINGLE POLE

PROSTOR P7 Side-Pole Umbrellas

Single pole

1 umbrella

Patented 'One Move System'

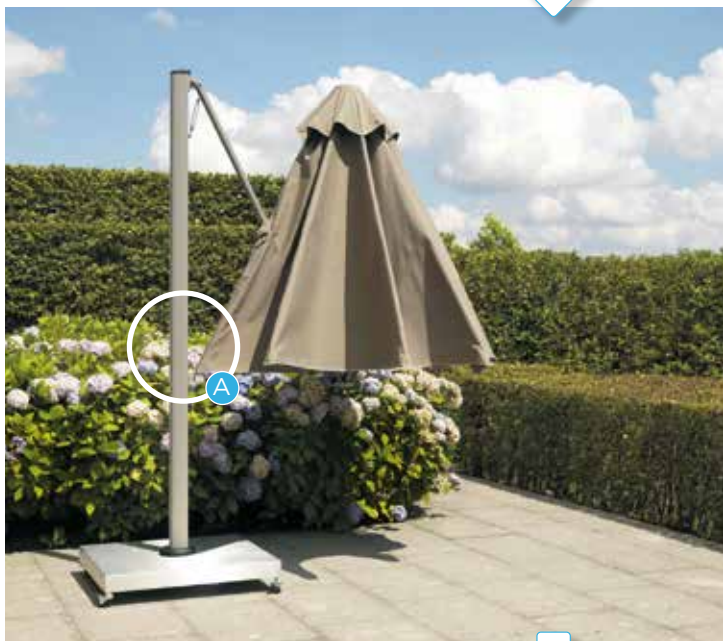

Manual operation

Pole rotates 300°

ONE MOVE SYSTEM > PAGE 14
COLOURS > PAGE 17
ACCESSORIES > PAGE 18

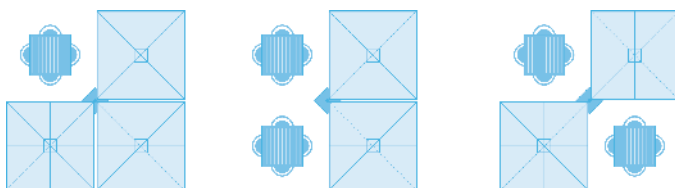

PROSTOR P6+P7 Easy operation

> No matter how strong and robust these umbrellas are, you don't have to be strong to operate them. The patented **One Move System** helps you to open or close the umbrella easily in one single movement. No need to move the table while closing or opening the umbrellas. The umbrella opens or closes above standard tables and chairs (not valid for XL version).

> Thanks to the **gas spring**, which compensates the weight of the umbrella, the umbrellas are ultra light to handle. For humid or seaside regions, we recommend the **optional stainless steel gas spring**.

> The P6 umbrella consists of 1, 2, 3 or 4 umbrellas on one pole. **Each umbrella can be operated separately.** You choose where you want shade or sun! This makes the P6 umbrella an ideal hospitality partner. For instance the following configurations are possible:

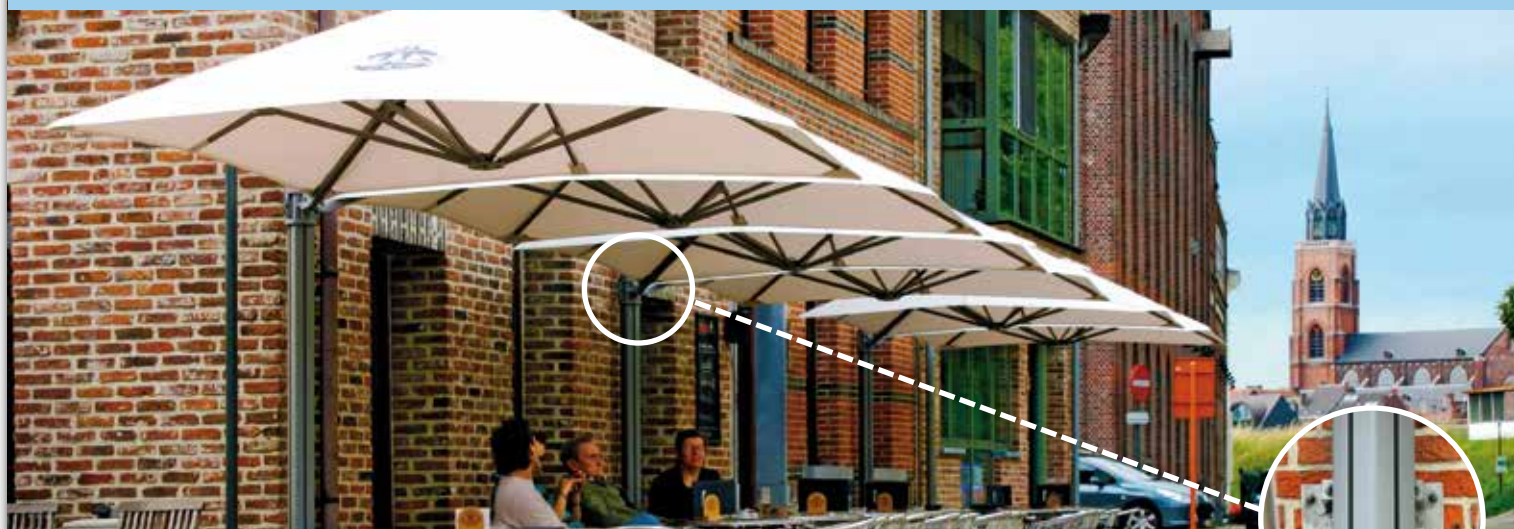

NEW

2.10 m

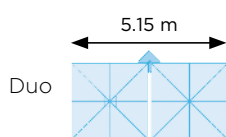

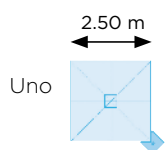

PROSTOR P6+P7 Wall fixation

Wall fixation P6

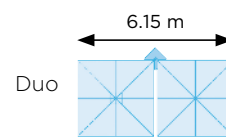

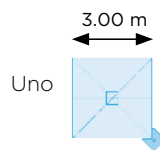

The P6 pole can be mounted on the wall easily with 2 brackets. This allows for sun protection without having the pole or steel base sit in the way. Not possible for the Round (RND) version.

SQUARE (SQR)

XL

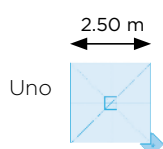

Wall fixation P7

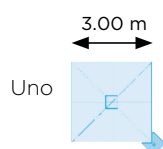

The P7 pole can also be fitted to the wall with two “rotating” brackets. By following the sun you can choose where you want shade easily, whatever the time of day. The P7 wall umbrella is designed to turn optimally when mounted on a corner. A small axle locks the umbrella into place and prevents it from spinning with the wind.

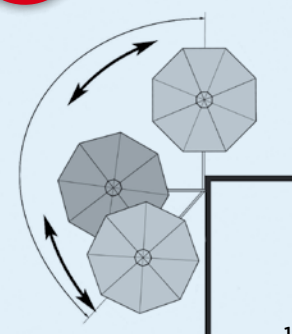

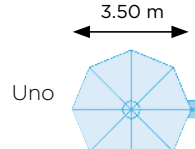

SQUARE (SQR)

Fade resistant

Water-repellent & Stain proof

Mold resistant

Easy care

Protects from UV

Colour retention

Uv filter – enjoy the sun safely

- > Ozone layer depletion has caused a reduction in the filtering of ultraviolet rays. This, in turn, entails that prolonged, unprotected exposure to the sun poses increased health risks. All P6 and P7 fabrics have the capacity to significantly reduce the penetration of UV rays and offer you and your children the perfect protection from the harmful effects of sunrays (100% of UV rays are filtered out). The 2 lighter colours (White sand and Natural white) filter 95% of the UV's.

- > The Skin Cancer foundation recommends Dickson Acrylic as a part of your complete sun protection regime, including regular use of sunscreen.

- > This label certifies that the fabrics do not contain any toxic substances and do not present any health, skin or environmental hazards (Oeko-Tex 100).

Repair kit – prolong the life of your umbrella

The Prostor Repair kit is a unique transparent repair patch for repairing tears and holes in acrylic and polyester fabrics. It is extremely strong and very elastic. The Repair kit is a permanent solution for your umbrella fabric, allowing you to enjoy your umbrella even longer.

- > Extremely strong
- > Watertight
- > Airtight
- > Very elastic
- > Does not fade
- > Does not dry out

Maintenance – let your umbrella shine like new

Prostor CLEAN

- > powerful stain remover
- > cleans intensely
- > removes stains and odours from the umbrella fabric

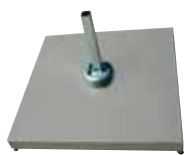

Prostor GUARD

- > protects against stains and pollution
- > colourless
- > restores water-repellent effect on the umbrella fabric

PROSTOR P6+P7 Accessories

Alu covers for base

RAL 9007

RAL 9016

RAL 9005

An aluminum cover for a stylish finishing touch. Coated in same colour of pole for steel base 90 x 90 cm or 100 x 100 cm.

Deluxe protection cover

The deluxe watertight protection cover protects your umbrella from any and all weather conditions. The cover is made from grey or black solution-dyed polyester fabric.

Rain gutters

Connecting several umbrellas is easy by using rain gutters with zippers.

Stainless steel gas spring

For humid or seaside regions, we recommend the optional stainless steel gas spring.

Swivel wheels with brake

Move your umbrella effortlessly thanks to caster wheels with brakes. Only for the P6 or P7 UNO umbrellas (max. weight capacity for 4 wheels: 320 kg).

Power-LED

NEW

When the sun goes down and dusk sets in, Power-LED lighting adds a new, intimately cozy dimension to your umbrella, allowing you to stay put and enjoy the day that little bit longer. The LEDs are installed at the center of the umbrella, with all wiring and steering hidden neatly in the frame and pole.

Motor*

Prostor makes your life more comfortable! From now on the Prostor P6 can be opened and closed by means of one integrated motor, operating all umbrellas simultaneously. *Only available for the P6 Quattro

Electric IR heating (1500 W) - enjoy your umbrella all year round

IP X5: completely protected against rain and water-spray.

Up to 4 heaters can be mounted on one pole.

The heater doesn't have to be removed when closing the umbrella.

Single or double sockets can be mounted onto the pole.
